COVID PROTOCOLS

To our dear members and friends,

Please note for the sake of this letter, “these premises” refer to the ENTIRE first floor of the shul building and the outdoor minyan.

In a unanimous decision by the board members, the following protocols have been adapted for the safety of the shul.

If you have any symptoms of COVID or any amount of fever (even low grade) please DO NOT enter the premises without a negative COVID test AND,

If you contracted COVID, please do not enter the premises before 14 days from the onset of the symptoms AND fever free (without meds) for 24-48 hours. If you are still showing symptoms by the 10th day, please call the president to discuss.

If you have been directly exposed to someone known to have COVID (within 48 hours of them testing positive or showing symptoms) please do not enter the premises before 14 days – if you develop symptoms in the midst of your 14 days, you start your count over. This ONLY applies to the person who was exposed (not other family members).

If you were hospitalized, please get directions from your health care provider and then discuss it with the President.

Lastly, it is our understanding that, if you are wearing a mask and are 6’ away from someone who tested positive, you do not need to quarantine. So please remember to ONLY sit in the designated areas and do not shmooze inside the building. Also, when traveling out of state, please follow the NYS guidelines for COVID.

Wishing you a safe and wonderful winter,

Yaakov Grunstein,
President
